\$

Restore Default: Returns to original settings.

## **User Role Icon Kev**

The User Role icon indicates the current level of access. This icon is used in this guide to indicate the access level needed to perform certain functions.

Note: Pressing the User Role icon will return the current access level to Guest.

## Alarm Status LEDs & Annunciator

- Red Alarm LED Flashes with Tank, Sensor ALARM **WARNING O POWER** 
  - and Line alarms. Yellow Warning LED - Flashes with Active System Warnings. **Green** Power LED – On when power is applied to the console.
- Note: Alarms automatically clear when the conditions that caused them are corrected. Indicator lights will stop flashing when there are no alarms.

## View Active Alarms

to view all Active alarms.

Note: Pressing this button will display active alarms only. When the Alarm Condition button is a Checkmark. there are no active alarms.

### **Clear Active Alarms**

A certified technician can help diagnose alarm issues that might come up, so it's a good idea to have your Service Company's information close at hand.

Note: Alarms cannot be cleared manually. Alarms will clear automatically when the condition that created the alarm has been corrected.

#### To Display... Gross Volume

Gross Level

- Net Volume
